## LUMINOUS COLOUR

This ad is for a hair product to change your hair into different shades of colour to express yourself. This product sells two colours at a time to create the trendy ombre look. Now this is a made up company but it is my take on creating a modern clean ad for temporary dyes.

## CARAVAN CATALOGUE

Caravan is a modern furniture company promoting their new line for spring. The idea for the look of this seasons catalogue came from my friends house, it's warm and welcoming.

8' x 8' Full colour.

# BEGINNERS COOKBOOK

This project I wanted to focus on a nice clean layout with images and copy that needed to be very organized for people to get all of the information, like reading the recipe.

This book would be sized at 7 in x 6.26in, full colour.

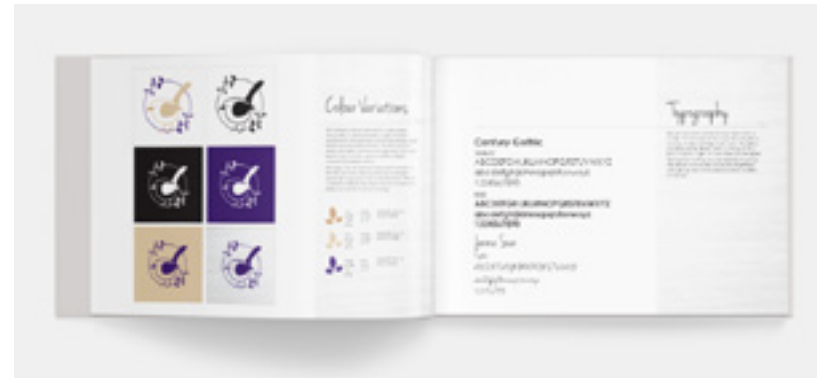

## NICOLE PAUZÉ GOURMET

Nicole Pauzé is a personal chef, creating high end meals for clients that host fancy gatherings. This is the brochure to promote her business.

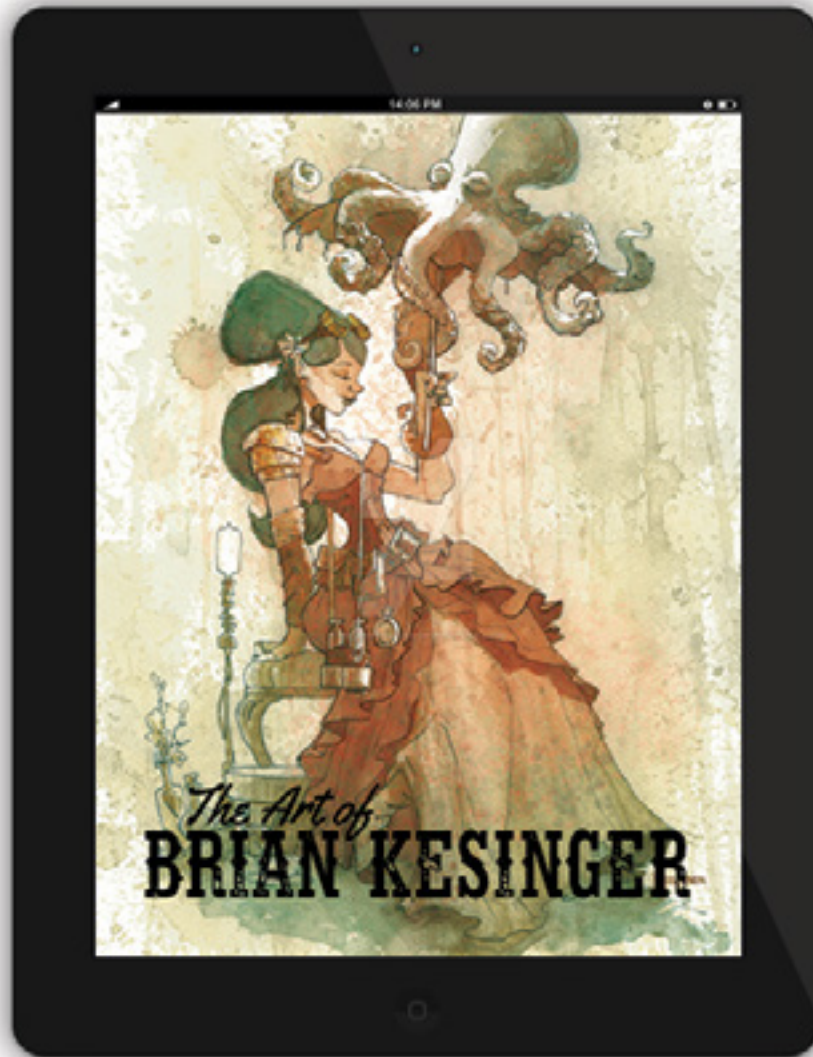

LUX  
WINE

This is a wine for a company Lux Wine I create to promote red, white and rose wines and create a system for the labels.  
Full Colour, 5' high & full wrap around.

## THE WREN'S NICHE

This logo was designed for a friend of mine for her Easy shop she wants to put up to sell her jewelry. The logo is to represent her and what she enjoys doing with her creativity. This gave me the chance to practice making and understanding a style guide.

## THE ART OF BRIAN KEYSIGNER

This is a art book of a Illustrator/ writer for Disney, Brian Kesinger. This EPub is to showcase his art work and some of his ideas on illustration.
