Able to manage time effectively and prioritize
multiple project as to meet deadlines

DESIGN EXPERIENCE

- Developed imaginative design solutions for advertising material including business cards, brochures, invoices, posters, and magazines using InDesign
- Applied the elements of design successfully by conveying innovative, contemporary and creative design ideas for corporate identity (logos, annual reports, brand guides), advertisements, editorial spreads, web and new media projects
- Firm sense of the design concepts; especially colour, typography, and layout
- Experience in commercial print material (business cards, letterheads, envelopes, etc)
- Prepared files for both print and web
- Basic photography skills, trained in both studio and life shoots
- Designed and redesigned websites using Dreamweaver, Muse and Wordpress using creative and innovative techniques
- Ability to take direction well and come up with unique, and clever designs which fit the task at hand
- Knowledge of the productive of packages and die-lines
- Created technical illustrations including product manuals, mascots, gradient meshes, skateboard designs, and maps
- Bringing in hand rendered designs and fully vectorizing them
- Up to date with current and upcoming trends in the world of design
- Manipulated 2D and 3D rendering using Illustrator and Photoshop
